PROFILE

Computer Engineering undergraduate seeking a software engineering role. Builds and deploys full-stack web applications with React, Node.js, and PostgreSQL/Supabase, including a client e-commerce platform with Paystack payments and a B2B invoicing app, and mentors fellow students in web development as IEEE Web Master.

EDUCATION

B.Eng. Computer Engineering — Nnamdi Azikiwe University, Awka 2023 – 2028 (Expected)

- CGPA: 4.59 / 5.00 (First Class) — ranked in the top 2% of the department.
- Coursework: Web Development; Data Structures & Algorithms.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), Python, SQL
Frontend: HTML5, CSS3, React.js, Tailwind CSS, responsive design
Backend & Data: Node.js, Express.js, REST APIs, PostgreSQL, Prisma, Supabase, Frappe Framework
Tools & Deployment: Git, GitHub, npm, Vercel, Render, Cloudflare, Netlify, Paystack API

PROJECTS

Ronc Footwear E-commerce Platform (Client Project) **— Live Site** React.js, Tailwind CSS, Express, Supabase

- Built and deployed a full-stack e-commerce site for a footwear client: React frontend on Cloudflare, Express REST API on Render.
- Used Supabase to store users and products and to handle user authentication.
- Implemented a shopping cart with persistent client-side state, server-side Paystack payment verification, and WhatsApp ordering.

InvoiceFlow (B2B Invoicing App) **— Live Site** React.js, Tailwind CSS, Node.js, Express, Supabase

- Built a B2B invoicing app for generating and tracking invoices, with client management, live search, and a dashboard.
- Implemented user authentication with Supabase and a Node.js/Express REST API; frontend deployed on Vercel, backend on Render.

Alumni Connect (Open-Source Contribution) React.js, Tailwind CSS, Express, Prisma, PostgreSQL

- Built the alumni opportunities page in React, where alumni share and browse opportunity posts.
- Developed Express.js endpoints using Prisma ORM to submit posts to, and retrieve them from, the PostgreSQL database.

EXPERIENCE

Frontend Web Development Intern — TechUp Africa Bootcamp Jan 2025 – Jul 2025

- Built responsive web interfaces with HTML, CSS, and JavaScript across a 6-month, project-based program; earned the Certified Frontend Web Developer certificate (Jul 2025).
- Collaborated in a team on Git/GitHub, using code review to ship cleaner, more maintainable code.

Backend Web Development Intern — Digital Dreams ICT Academy Sep 2025 – Dec 2025

- Built a REST API with Node.js and Express.js, including authentication flows that protect user data.
- Applied Node.js core modules (such as fs) and third-party npm packages to build and organize server-side logic.

LEADERSHIP

Web Master — IEEE Nnamdi Azikiwe University Student Branch Sep 2026 – Present

- Designed and led a 30-day web development mentorship for 36 student members, teaching HTML, CSS, and JavaScript through an evolving personal portfolio project hosted on Vercel.
- Maintain and update the branch's official website.
